First time author Margaret Fisher is no newcomer to the knitting world. She has been teaching her popular class on Seven Things that can "Make or Break" a sweater for several years now at nationally attended shows and she has refined her knowledge down to the essential elements that can turn your "home made" into the elegant "hand made." This book covers each of these elements, like cast ons, increases, finishing techniques and others, each in their own beautifully detailed chapter full of tips and tricks to get your knitting to look its best. The book also features clear, precise patterns to practice the seven "make or break" elements.

It's hard to believe that this is a self-published book, it's beautifully designed and each illustration is chosen to best highlight the technique unambiguously and in close-up detail. The writing is clear and precise and the layout of the book is sleek and professional. This book is a valuable resource for any knitting library, beginner to advanced.
